

FlyRank AI Internship — Week 1 Deliverable

Assignment: What Are You Proving?

Track:	General AI Fluency
Phase:	Setup Phase (Week 1)
Workload:	2 Hours
Intern:	Abdul Raheem
Status:	Ready for Submission

Executive Summary

A portfolio with no claim is just decoration. This deliverable defines the foundational proof statement, target persona, single high-value call-to-action, and core rationale for Abdul Raheem's FlyRank AI/ML Portfolio.

1. Deliverable Copy

A. One-Paragraph Proof Statement (Claim + Person + Action)

Proof Statement: "I build production-ready ML/AI systems backed by verifiable performance metrics, benchmark notebooks, and clean web interfaces, specifically engineered for Senior Machine Learning Hiring Managers who need proven technical execution over resume claims, driving them directly to book a 15-minute Technical Intro Chat."

B. One-Line Why

One-Line Why: "Static CVs and LinkedIn profiles list keywords, but owning this platform provides live, reproducible proof of end-to-end ML model deployment, benchmark metrics, and clean code that traditional resumes cannot demonstrate."

2. Component Breakdown

Element	Specification	Rationale
One Primary Claim	Production-ready ML/AI systems with verifiable metrics & clean UIs	Focuses on end-to-end ML engineering capabilities rather than general software claims.
One Target Person	Senior ML Hiring Manager / Lead AI Engineer	A specific technical decision-maker evaluating candidate engineering capabilities.
One Action	Booking a 15-minute Technical Intro Chat	A single, zero-friction conversion goal that initiates direct technical evaluation.
The One-Line Why	Proving live execution & benchmark metrics	Solves the limitation of static resumes that claim skills without verifiable proof.

3. Pass / Revise Audit Checklist

- [X] **One primary claim is named:** Focused strictly on building production-ready ML/AI systems with metrics.
- [X] **Specific audience:** Targeted at Senior ML Hiring Managers & AI Engineering Leads.
- [X] **Single action chosen:** Direct booking of a 15-minute Technical Intro Chat.
- [X] **Unique to my proof:** Tied directly to verifiable ML benchmarks, notebooks, and live visual web interfaces.

[X] One honest line why: Clearly articulates why a portfolio is required beyond CV / LinkedIn profiles.

4. AI Tutor System Instructions (AGENTS.md)

```
# Antigravity Custom Instructions - FlyRank Portfolio Build Tutor

## Core Role & Persona
You are acting as an expert AI/ML Portfolio Tutor & Technical Design Partner for Abdul Raheem during the 8-week FlyRank AI Internship.

## Proof Statement
"I build production-ready ML/AI systems with verifiable performance metrics, benchmark notebooks, and clean visual web interfaces."

## Target Audience & One Action
- One Target Person: Technical Recruiter / Senior ML Hiring Manager evaluating AI engineering capabilities.
- One Action: Booking a 15-minute Technical Intro Chat / Requesting Project Walkthrough.
```

5. Portal Submission Notes

```
PROOF STATEMENT:
"I build production-ready ML/AI systems backed by verifiable performance metrics, benchmark notebooks, and clean web interfaces, specifically engineered for Senior Machine Learning Hiring Managers who need proven technical execution over resume claims, driving them directly to book a 15-minute Technical Intro Chat."

ONE-LINE WHY:
"Static CVs and LinkedIn profiles list keywords, but owning this platform provides live, reproducible proof of end-to-end ML model deployment, benchmark metrics, and clean code that traditional resumes cannot demonstrate."
